

The Water Cycle

By: _____

Label the water cycle using the words in the table.

Precipitation
Snow
Rain
Evaporation
Evapotranspiration
Condensation
Water Vapour
Ice & Snow
Runoff
Surface Melt
Groundwater
Surface Water

The arrows show the direction of water flow.

Water can exist in three states:

-----/-----/-----

Using 3 different coloured pencils/markers,
colour each word in the water cycle diagram to match the state of water it is.
